

Do not tamper with NJ's Do Not Call Law. The whole point of having this type of law/list is to stop "unsolicited" sales calls. It's such a pleasure when I answer my phone NOT to be disrupted by telemarketers. Honestly, I was tired and frustrated constantly saying "take me off your list" and never knowing whether it's being done. At least with NJ's law, I KNOW something has been done to insure my privacy.
